

ADEL ATYA

AI & Automation Engineer | Cairo, Egypt | adel.ai@example.com

SUMMARY

AI & Automation Engineer specializing in LLM systems. Builds production Retrieval-Augmented Generation (RAG) chatbots, document Q&A tools, and end-to-end automation pipelines. Strong Python background with a focus on shipping reliable AI features.

TECHNICAL SKILLS

Python, LangChain, OpenAI API, Anthropic Claude API, RAG, vector databases (pgvector, Pinecone), embeddings, FastAPI, Next.js, React, n8n, Docker, Git.

EXPERIENCE

AI Engineer (Freelance) – 2024 to present

- Built a "chat with your documents" RAG assistant: PDF ingestion, chunking, embeddings, vector search, and cited answers.
- Automated client workflows with n8n and the OpenAI API, cutting manual work.

EDUCATION

B.Sc. Computer Science.
